OUR MOTTO

SERVICE BEFORE SELF

This means that we serve others willingly, graciously and selflessly. We should not expect anything in return for our service because there is greater pleasure in giving than in receiving. By serving others we serve God.

“The goal of education is not to increase the amount of knowledge but to create the possibilities for a child to invent and discover, to create men who are capable of doing new things.”

Jean Piaget

PLEDGE

India is our country. All Indians are our brothers and sisters. We love our country and we are proud of its rich and varied heritage.

We shall always strive to be worthy of it. We shall respect our parents, teachers and all elders and treat everyone with courtesy.

To our country and our people, we pledge our devotion. In their well being and prosperity alone, lies our happiness.

ABOUT THE SCHOOL

The world is a fascinating yet mysterious place. Young people need to understand it, feel at home in it and love it. They need to be excited about the world they live in. We believe that the formative years of a child are the most significant and need careful nurturing. Confidence and belief in oneself is what we build.

JAGRAN SOCIAL WELFARE SOCIETY, Completed 25 Years of Excellence and Empowerment

"On earth, there is no purifier as great as knowledge."

Established in the year 1997 as non-proprietary, non-profit charitable society with the mission of making quality education accessible and affordable to students to pursue their dream of achieving excellence, Jagran Social Welfare Society (JSWS) completed its resplendent 25 years of excellence on 28 August 2022.

At the heart of this noble endeavour is Shri Hari Mohan Gupta, a visionary leader whose unwavering commitment has paved the way for the society's success, along with prominent professionals from different walks of life with the ideology and thoughts for a social cause of its inspiration and fatherly figure Late Shri Guru Dev Gupta. Guided by the compassionate vision of Shri Hari Mohan Gupta, the society has become a catalyst for change, leaving an indelible mark on the state of Madhya Pradesh, India and beyond. It aims at imparting quality education to the knowledge seekers and empowering them to evolve into responsible, confident, and self-reliant individuals who can prove to be assets to the nation. Its vision to lead and facilitate students to achieve their limits is governed by the core values of integrity, passion, empowerment, knowledge and humility.

Serving with the motto, 'Service above Self', JSWS has been developing and propagating educational programs, by the way of establishing progressive schools, colleges, universities or other educational institutions in India, which are open to all without any distinction of race, caste or creed and other social welfare objectives of the society.

In the past 25 years of its operations, the society has carved a niche in the state of Madhya Pradesh for itself and has set new benchmarks in providing quality education to more than 50,000 students since its inception. The society is successfully running four branches of Delhi Public School under the aegis of Delhi Public School Society, New Delhi in Bhopal and Indore. The Society also ventured into higher education by establishing world-class institutes of higher education in the year 2009. In 2013, it promoted Jagran

Lake City University, a state private university approved by the Government of Madhya Pradesh and University Grants Commissions, Govt. Of India. JLU Bhopal is one of the fastest growing and one of the most awarded universities in Central India having practice-based pedagogy at its core.

Being true to its ideology of giving back to the society, Jagran Social Welfare Society has also promoted four Shiksha Kendras which are providing free education to more than 1000 less fortunate children from Class-1 up to University to match strides with others.

From its inception, Jagran Social Welfare Society has championed the belief that education is a fundamental right that should be accessible to all, transcending barriers of race, caste, or creed, so that they are equipped, empowered, and well versed in every possible way to emerge as the harbingers of social change.

The schools of the DPS Society are centres where :

We aim to preserve and enhance the highest standards of excellence and prepare generations for the 21st century.

DPS students are helped to master the expanding horizons of technology as also become the repository of a deep commitment to Indian ethos and culture in its pristine form.

DELHI PUBLIC SCHOOL, BHOPAL:

DPS, Bhopal, which has consolidated its position as a popular seat of learning in central India, is treading ahead, backed by the principle of efficient and effective learning, immersing the learner in the concept of self-development and enabling him to have a rock solid value system. In a world buzzing with cut throat competition and where winning is determinant to success, DPS, Bhopal, is the right place to equip the students to embrace every challenge, avail every opportunity and accomplish dreams through systematized and well planned, all encompassing education.

PRINCIPAL'S MESSAGE

**“EDUCATION SERVES AS A POTENT CATALYST FOR
PERSONAL EMPOWERMENT AND SOCIETAL PROGRESS.”**

As the gateway to yet another academic year gracefully swings open, with anticipation as our compass and ambition as our guiding star, we are emboldened by the echoes of past triumphs and fuelled by the promise of new horizons. In the dynamic landscape of education, where innovation meets tradition, Delhi Public School Bhopal embarks upon the threshold of its magnificent 25th Anniversary, redefining and consolidating its pedagogical practices while embracing innovative and technological advancements, fostering interdisciplinary learning, and maintaining a commitment to academic rigor that has been the cornerstone of its illustrious quarter century of odyssey of eminence and unparallel academic milestones of the Dipsites. The nurturing environment of the school has not just fostered academic erudition among the students but has also cultivated 21st century skills like critical thinking, creativity, and social skills assisting them to become lifelong learners, self-directed, realistic, and responsible decision makers in the multicultural, ever-changing world.

The evolution of education delivery methods parallels the evolution of information-sharing mechanisms. The role of the educator in this scenario has moved from being the 'sage on the stage' who pontificated information to students, to being the 'guide on the side'. The teaching learning pedagogy at DPS aligns with the National Education Policy (NEP) and National Curriculum Framework (NCF) recommended approaches, focusing on sustainable development goals that engage, excite, and effectively educate students.

At DPS Bhopal, we employ two diverse strategies that are of 'Love and Logic' to foster a positive learning environment for all our students. Love and Logic may seem like two contrasting forces. While love helps nurture trusting relationships, where students feel respected, appreciated, and loved by the teachers, logic helps develop in them personal responsibility, self-control, good decision-making skills, self-confidence, and character building with high moral values.

The journey to "Ready, Set, Lead" begins with collaboration. It is about learners, educators, and parents embracing the transformative power of education. In the words of Ralph Waldo Emerson, "Do not go where the path may lead, go instead where there is no path and leave a trail." With fervent resolve, we traverse the landscapes of learning, with unflinching commitment to sculpt the future with wisdom and enlightenment ensuring the perpetuation of our enduring legacy in shaping lives.

Best Wishes!
